

• A little about me...

- Finished my Ph.D. after 20 years of experience
- A long career in the public sector, 25+ years
- Teaching at a local University adults making a career change

The Office of Resilience's mission is to lead Miami-Dade County to a resilient and sustainable future by identifying vulnerabilities, coordinating stakeholders, and facilitating innovative solutions.

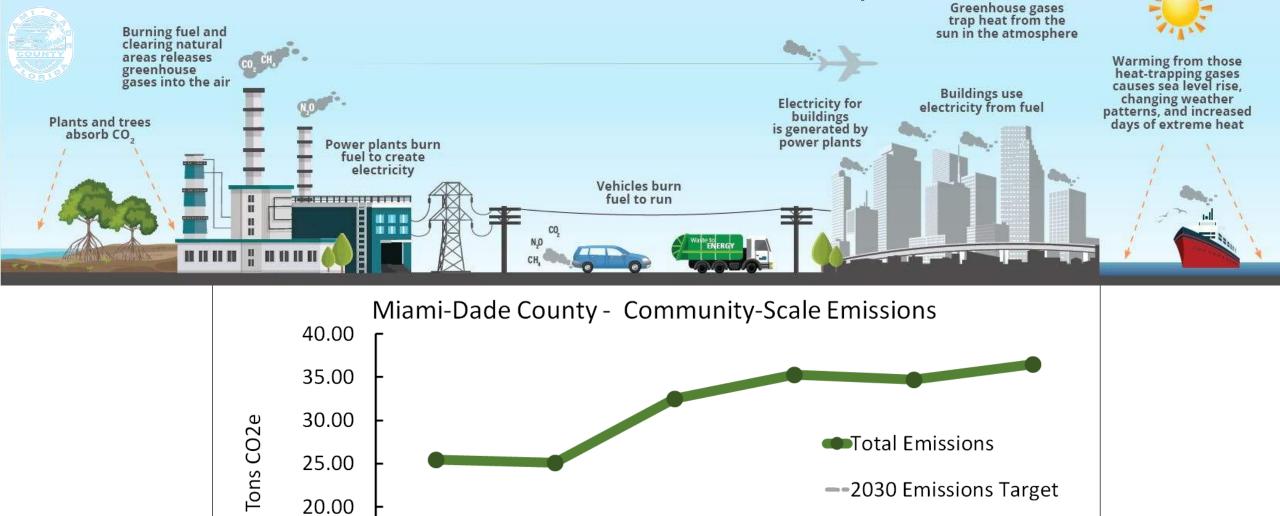

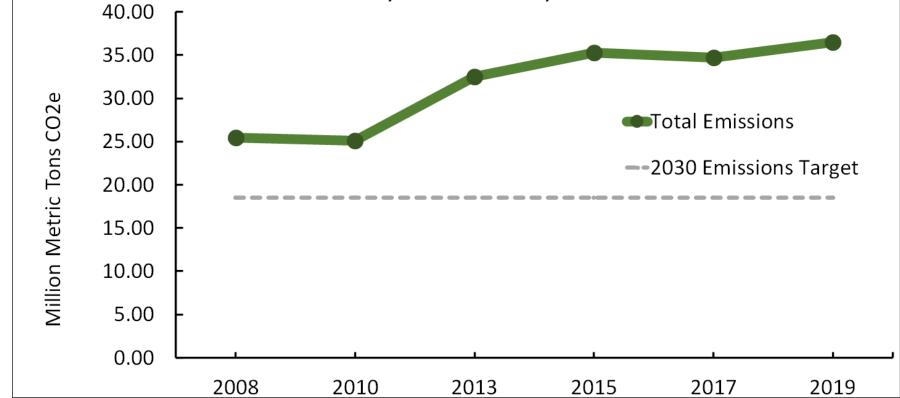

Connected Strategies

7 Approaches to reach our goal

GETTING TO NET ZERO EMISSIONS BY 2050

7 APPROACHES TO REACH OUR GOAL

ENERGY & BUILDINGS

Benchmark, retune and retrofit existing buildings

Expand on-site and off-site renewable energy generation

Build ultra-low energy buildings

LAND USE & TRANSPORTATION

Reduce transportationrelated fuel consumption

Expand and protect green and blue spaces

WATER & WASTE

Convert waste to energy

Reduce waste and water use

Engineering Background is Helpful and Important

Personal Satisfaction is Key

- I have a purpose in life, and I benefit my community.
- Influencing the future for my kids and future generations
- Promising and rewarding
- Challenging
- Working on a multitude of projects never have time to get bored
- My job makes me happy ☺

New skills

- Communications skills are essential
- Communication with colleagues, internal and external stakeholders, and the community in general. Need to use different strategies to achieve the same goal.
- Translate complex issues into simple terms not easy!
- Most large complex projects benefit from an interdisciplinary team working with other disciplines is critical

Lack of Support For Policy Adoption

- Policy adoption can happen in different environments
- Political support is important for policy adoption
- Need to learn to adapt and be flexible
- Need to identify the language to use and make connections with the priorities

Thank you! Gracias!
